PERSONAL INFORMATION

Name Verica Milojkovic
 Address Daniceva 7 Nis
 Telephone **+381064/20 23 218**
 E-mail vericamilojkovic@gmail.com
 Nationality Serbian
 Date of birth 05 July 1953

E-mail: vericamilojkovic@gmail.com www.apiterapija.rs

Education and professional experience:

Graduated in **1980** at **Medical Faculty** in Nis

Specialist of general medicine from 1993

2001 - course in Informatics

2002 - completed a course in Emergency Medicine in Nis

2007 - completed a course on Apitherapy

2008- completed a course on Phytotherapy

I have been practicing Apitherapy since year 1990. I started giving propolis to my younger child because of the health problems and that was the time when propolis entered my home and we are using it for almost 26 years. I started Apitherapy practice with my patients at the year 1997.

I have been writing for many magazines. First of them was Matica-official Serbian beekeeping association magazine , Power of Nature, then magazines: Herbs and health, Blic, Healthy Life, Third Eye, magazine-MAMA Blic, etc.

I have been giving lectures and presentations all around Serbia and I visited almost every large city in my home country. I also presented my work in neighboring countries Sofia (Bulgaria),

Plav, Podgorica (Montenegro), Skoplje, Kumanovo (F.Y.R.O. Macedonia). Romania, Slovenia, Germany a.s.o.

My first scientific papers: Third Congress of the SPOS (Serbian beekeeping society)
-“Effect of the royal jelly on high levels of cholesterol and triglycerides”.

ORGANISATIONAL SKILLS AND COMPETENCES

In the year 2007 with the unselfish assistance of Mr. Milenko Radosavović and experts of the Ministry of Health of Bulgaria I organized a seminar in Apitherapy in Nis, where 12 doctors received an official diploma for practicing Apitherapy. I formed the first Serbian Apitherapy Society at the 7th of September 2007 and now I am in my second mandate. According to program that I sent to the Ministry of Health of Serbia, Apitherapy was recognized as a complementary branch of medicine. With approval of the Health Council of Serbia in terms of continuous education of doctors I will give a lecture at my institution regarding theme: “Propolis application in medicine as an additional remedy”.

I am cheerful, optimistic, communicative, persistent, and creative person.
I love reading books, writing scientific papers, visit the theater, and travel.
